I am out of town; however I wanted clarify for you that our current efforts is at a very preliminary stage of evaluating whether to initiate any further removal evaluation. We have no actions planned at this time. I am obtaining background information, and talking with some of PRPs and landowners. No removal assessment or other response action is yet planned. When we have some more specific ideas on what might be appropriate as a next step, we can have a meeting to discuss it - probably late April.

As for the Spec Acct, I have no intention to use it for investigations. If we decide a Removal is appropriate, then we will evaluate when and if to use it - a ways off for now..
